# 9<sup>th</sup> International Conference on IPR

*Quantum jump in national and global economies -Role of IPR policies and action plans*

20 November 2023; Sovereign 1- Hotel Le Meridien, New Delhi

1030-1115 Hrs

## **Session 1: Maximising the Value of IP by Collateralization and Transactions**

IPR transactions have become inevitable across all sectors of technology due to fast changes in the market and technologies. Raising funds for research and development and subsequent translation to products is a new challenge for firms all over but especially those in developing countries. One would like to learn about various methodologies for transactions while dealing with complex or emerging technologies. How financial institutions are brought on board to fund such transactions partially or fully would continue to be a challenge. SMEs face more problems as in absence of funds they are not inclined to undertake inventive activities. This session is designed to share thoughts and practices on these topics.

**Moderator: Mr R Saha**, Senior Advisor, CII

**Speaker:**

- **CA. Hans Raj Chugh**, Central Council Member, ICAI
- **Dr Masakazu Shiozawa**, Director of Regional Cooperation Office, Japan Patent Office (JPO)
- **Mr M Faisal**, General Manager and Global Head, IPR Department, Tata Motors Ltd

*Quantum jump in national and global economies -Role of IPR policies and action plans*

20 November 2023; Sovereign 1- Hotel Le Meridien, New Delhi

1145-1230 Hrs

## **Session 2: Importance of Electronics, Software and AI in next Generation IP Practices**

Inventions are happening at a rapid pace to handle big data for almost an infinite number of applications. Development of various new tools, be it software or hardware, is impacting the technologies in a big way. Development of Chip on full wafer would increase the chip capacity presently handling 20 billion transistors to 1.2 trillion transistors resulting in more speed, power, memory and so on. The availability of quantum computers may no longer be a mere dream. Conversion of unstructured big data into structured data for training software, algorithm for statistical models and predictive capabilities will go a long way in determining the market leadership in these areas. There is a need for paradigm shift in how we look at these capabilities for the purpose of awarding patents and other IPR.

**Moderator: Mr R Saha**, Senior Advisor, CII

### **Speaker:**

- **Mr Shankar Venugopal**, Vice President, Mahindra & Mahindra Ltd
- **Prof Dr Heinz Goddar**, Patentanwalt, European and German Patent and Trademark Attorney, Boehmert & Boehmert BOEHMERT
- **Mr Subodh Kumar**, Head – IP Services, Tata Consultancy Services
- **Mr Piyush Sharma**, Associate Partner, Lex Orbis

# 9<sup>th</sup> International Conference on IPR

*Quantum jump in national and global economies -Role of IPR policies and action plans*

20 November 2023; Sovereign 1- Hotel Le Meridien, New Delhi

1230-1315 Hrs

## **Session 3: Standardization of Patent information and documentation: Indian and global best practices**

With millions of patent applications being filed every year all over the world, we need to have standards in documentation for filing patent applications to reduce the time of examination and the cost involved. In addition, international filings are affected if standards for disclosure of inventions, novelty, inventiveness, and description vary from country to country. It gets complicated if applications are to be translated into the language of the country where an application is being filed. Some standardization processes are ongoing at WIPO and in several countries. More awareness is required towards standardization of documents to be submitted.

This session will focus on various importance of the Patent information and documentation.

**Moderator: Dr Pushendra Rai**, Former Director, World Intellectual Property Organization (WIPO)

### **Speaker:**

- **Mr Hirotugu Taguchi**, Deputy Director of Regional Cooperation Office, Japan Patent Office (JPO)
- **Shri M Ravishankar**, Deputy Controller, IPO, Delhi
- **Mr John Cabeca**, IP Counselor for South Asia, US Patent and Trademark Office
- **Mr Andras Jokuti**, Director, Patent and Technology Law Division, Patents and Technology Sector, World Intellectual Property Organisation(WIPO)

1415-1500 Hrs

## **Session 4: IP Issues in Drugs and pharmaceuticals- Managing Global Health**

Covid 19 has taught us the importance of sharing science, technology, and know-how to address global health issues. Intelligence and knowledge of available patents in the health sector including pharma, vaccines and medical devices have been a roadblock for many companies. It is essential to establish a robust supply chain for such products for implementing quick and acceptable solutions. We do not know when the next pandemic will hit the world. A global preparedness at least towards exploiting the available knowledge is the need of the hour. Further, in this highly regulated industry, inventions have to go through this pipeline before entering the market which is time consuming. One also looks at intensive collaborations in R&D, regulatory practices and supply chain this specialized sector.

**Moderator: Dr B Dinesh Kumar**, Head -IPM, Dr Reddy's Lab

### **Speaker:**

- **Dr Shirshendu Mukherjee**, Mission Director, BIRAC
- **Dr Arshad Jamil**, Vice President, Biocon Biologics Ltd
- **Dr Dinesh Kumar Sarwal**, Senior Director & Head-IPR (Radiopharma), Jubilant Pharmova Ltd
- **Dr Shamim Ahmad**, Director, and Head- IP & Legal, Aurigene Oncology Ltd

20 November 2023; Sovereign 1- Hotel Le Meridien, New Delhi

1500-1545 Hrs

## **Session 5: Linking State Level IP Strategy as a part of National IP Policy**

Indian states who have been blessed with the presence of host of pioneering Industry, academic and R&D institutions, progressive MSME sectors, vibrant start-ups to reposition as the most attractive destinations for investments in innovative and new businesses. The major differentiator for States would be availability of R&D facility, enabling redressal of IP disputes in a faster, easier, and transparent manner and IP enforcement ecosystem.

In this session, the speakers from different Indian States will highlight the existing IPR ecosystem of the states and future plans to make the states stronger IPR ecosystem.

**Moderator: Dr Raghavender GR**, Senior Consultant (IPR), CIPAM, Department for Promotion of Industry and Internal Trade (DPIIT), Govt. of India.

### **Speaker:**

- **Mr Navneet Mohan Kothari** (IAS), Managing Director Madhya Pradesh Industrial Development Corporation (MPIDC), Department of Industrial Policy and Investment Promotion (DIP & IP), Govt. of Madhya Pradesh
- **Shri Pravin K. Solanki**, IAS, Secretary and Commissioner, Cottage and Rural Industries, Govt of Gujarat
- **Smt Prabhavathi Rao**, Visvesvaraya Trade Promotion Centre, Department of Industries & Commerce, Government of Karnataka
